Design three MVTs

Ten minutes. One business goal. Three small changes. Write short phrases.

Business goal — what should improve, and for whom?

Current process — how does the work happen?

Friction and context gaps — what gets in the way?

Three candidate MVTs

Give MVT 1 more detail. MVTs 2 and 3 are possibilities, not commitments.

Smallest useful change	How will you know it worked?	What could the next MVT reuse?
01		
02		
03		

First action — what will you try, and who will own it?
